

2-Port PS/2 KVM Switch

Product Overview

The LevelOne KVM-0213 is an easy to use 2-port PS/2 KVM switch for connecting 2 multi-platform operating system computers to a single keyboard, mouse and monitor. It also allows users to connect audio from the connected computers to a single audio system.

Multi-Platform Use

The KVM-0213 supports multi-platform computer systems, enabling users to control all these computers using a single console. With easy hot-key swap selection between computers, users can operate both systems simultaneously.

All cables needed are already connected to the KVM switch. Users can connect the PS/2 KVM without any need for additional software installation or system configuration. Also, the KVM-0213 requires no power to operate.

High Quality Audio/Video Support

The 2-port KVM-0213 supports DDC2B and VGA resolutions of up to 2048 x 1536 pixels. The switch also incorporates audio support, allowing users to connect audio channels of both systems to a single audio system.

Key Features

- 2-port PS/2 KVM Switch for home or office use
- Connect multi-platform operating system computers to a single keyboard, mouse and monitor
- Supports high-video quality – up to 2048 x 1536 pixels
- Easy installation with no software installation
- All cables attached, ready-for-use
- Features audio support
- Provides auto-scanning
- LED display for easy status monitoring
- Provides Hot-Key port switching
